Interview

1 hr.

1. Aldege Pelletier
- 2.
3. 71 Station Street
4. 672-5525
5. miner
6. Haileybury Ontario
7. Mother, Lorrainville Que Father Otter Lake
8. Married
9. 40 yrs.
10. On e thing I think there could be a lot of changes made here, stricter measures in the way people should be made to improve their property such as cleaning yards and homes.

I believe their should be one room for each grade in school as Teacher can have more time for one grade. If there happens to be any children that are slower in learning. I could say paved roads and sidewalks but must realize anything that is done costs the taxpayer more money.

I think these night courses are real good to attend, as shift work you can not attend them properly.

We sure need Dentists, Doctors, stores. It would be nice if a carpenter shop were different articles of furniture could be built in Town.

Small place for recreation for children where they could walk somewhere for a club or some other form of entertainment. The Town Office in North Cobalt would have made an excellent library for this end of Town. Water and sewers are real nice and sure needed only the price of these are too expensive.

They also should be considering another senior citizens home.

It would be nice to see some wice trees along the streets and more lighting which is need3d.
