born in Haileybury, Ontario

This interview was done in conjunction with one being conducted of her parents and only the questions pertaining to present things were asked:

She likes the summer because she likes swimming

thinks the town is too quiet with not enough to do.

would like to see things like a tennis court, badminton, gym classes something on the organized line for teenagers, a swimming pool would be nice. Things are too expensive for the 'kids' they don't have many dances because the bands cost too much, the show is too expensive.

When she goes out on a date there isn't anywhere to go and she doesn't want to go to the hotels (she is under age and not interested she says) all you can do is ride around or go and have a pop in the restaurants, sometimes she thinks she prefers to go babysitting than going out with nothing to do.

She feels that there are adequate educational facilities here for her, she is taking a commercial course at Ecole Secondaire Ste Marie. Plans on leaving the town when she is finished school.

Would like better store with more choice of goods.
