8. Nova Scotia
10. Came to the O'Brien Marjorie was born there in 1925. Came to New Liskeard in 1926. We stayed at John Niels on Whitewood Ave. after we got a house my husband took sick and died there. I went home to Nova Scotia stayed a while a year or so it wasn't home. Then I came back to New Liskeard. I got married again in Sudbury came back to Rockely (3 miles out of New Liskeard on a farm). We had 180 acres. I didn't help with the farming. I raised turkeys and chickens, that was my spending money. Don't know don't like Cobalt now. I visited Cobalt once. I had a boy friend there that I used to write to. I don't like Cobalt (The lady from the other bed said you don't like Cobalt because he didn't ask you to marry him). At the O'Brien we lived in the cookery. My husband fixed up a nice apartment in the cookery thats where Marjorie was born there. I'm going home to Nova Scotia again this summer. I go every summer. This year I am going in June. I worked hard on the farm. We had no water it was hard work. I like it here its different from home. I had 4 step children along with my own two. I'm contented here. They didn't have electricity when I first went there to live. My second husband Leslie Benjamin was his name was a cook he cooked for the Dep't of Highways in Temagami. My son lives at Chesters corner. They are taking ourt t out the corners to stratight straighten the road.

Mrs. Specner's greatest interest in men. I felt it a waste of time writing it all down.
