43. lunch bucket
44. supper
45. jeans, sport shirt
46. same
47. mostly at Glen Lake. Can't use it since Glen Lake mine started to operate
49. everything
50. home
51. cleaned town up. Quite a change
53. nothing

55. yes

56. mines opening up anything that would change the unemployment situation

57. summer

58. Bingo's

59. Watch TV

60. Any small industry would really help. A paper bag plant. We have the poplar wood that would supply material .A smelter. If the price of silver went up the mines would reopen and people wouldn't be afraid to invest their money in Cobalt. Raw silver could be mined, processed here and shipped to distributors. If this restoration program goes through we could have a trading Post with arts and crafts supplied by the local people .This would make quite a few jobs for young and old.

61. Present state no one. But if we had tourism and mining development it would bring more money to Cobalt. People in industry would be willing to invest in this area.

62. Mine tours, developing parks, hospitality, Miners Festival, historical background ..Drummond Cairn, Bass Lake, Rocks for crock collectors.

### Highlights

The Moores are a young couple, new baby and are feeling the unemployment situation.
