

Bula Lathem

April 5, 1972

1 hour

1. Herbert K. Wallesch

2.

3. 158 Station Street

4. 672-5648

5. Automotive mechanic

6. Germany

7. Mother and Father Germany

8. Married

9. 40 yrs.

10. Sold it down the drain it was a very good community alright till amalgamation I think we're second choice now for anything. Education not too bad and there are quite a few schools around which I think are sufficient. I think they send far too much money to other countries should develop some kind of industries here. We only get half of what we're entitled to. Northern area our weather conditions are quite cold hard on fuel etc. In the Sudbury area wages are higher and this is why so many go away from round here for jobs.

We don't have paved roads or sidewalks still as if we lived in country. No storm sewers only ditches for water. We only have fire protection, garbage disposal and high city taxes. Small business Browns exploration, J.Lathem construction, Wilsons service station, Watsons store and gas Bijeau wrecking yard, Denis Gils MacPherson and Charles Lindsay grocery stores.

In Haileybury the recreation committee believes in hockey and baseball there is no money available for any other kind of recreation. We need proposals made to widen park areas and expand council just ignores this more for senior citizens handicapped. She have some hall where activities could take place. Yes changes should be made back to our original being we handled our own affairs and turn it back to Bucke Township. We are supporting Haileybury had money in bank before we joined Haileybury and they were away in the red. Unless we have people who are interested in treating the Township of Bucke and Town of Haileybury equal. Our taxes are also too high. I would like to see the old cemetery restored they have been approached different times. It could be called a pioneer cemetery.
