

Carmen Stubinski April 19,1972

2 1/2 hours

1. Howard Taylor

4. 21 Prospect Ave., Cobalt

5. 679- 5554

6 . 65 years old

7. Coldwater,Ont

8. Coldwater,Ont

9. Grandfather came from Ireland. My grandfather Oliver Borrow came to Cobalt in 1913. He prospected here. Thats how I first haRrd about Cobalt.

10. 1950

13. 7 of us

14. Was a fireman on the steam boats on the great lakes, steamboated security offier in 1974-43

15. clerk

16. retired 1971

17. retired

18. we moved here. New Years Eve. It was 47 below in 1950

19. It was in poor condition, run down and in had shape

20. We were moved here by the hydro and expected to make my home here permanent We had 4 children going to school and we here there were good schools here.

21. The mines were running Silver Miller was operating at the mill was operating at Brady Lake. We rented for 1 year and bogq bought this house.

23. When I first started to work for hydro it was 6 days a week at 40128. per month

24. We liked the location of this house. We got a truck backed it up to the door and shovelled, shovelled out the dirt and tore out the whole insides and took wallpaper and dirt away. We just didn't know how anyone could have lived in such filth and a building falling over like that. We put a basement under it and remodelled the whole thing. We now have a comfortable home.

30. Bucks, TBS, Powdons Hardware, Woolworths Shaws Drug Store, Irwins Grocery, Tom lacks. If you wanted to buy anthing from Tommie he wouldn't sell it to you.

Robinsons GARage Stadleman's Book store

31. Bowling alley, community hall, George Panaritus and John Aimonie Pool room

32. hockey

36. Dr. Dugan and Dr. Dunning

38. cold water

39. I carried a lunch for 47 years

44. always a big dinner at night

47. Church on Sunday - mother made me go to sunday school We could never play cards or do anything on Sunday. It was sacred we just sat around

48. Have a picture of dad when he got married

49. I never lived in a more friendly place you make friends easily and we have good neighbours,

50. The town looks better.

51.. They tore down the Stadleman building, old separate and public schools and St. Patricks old school built new schools. Remodelled old Robinson bolding and made a

recreation centre. Remodelled community hall and put modern new street lights in the town

52. ONR long distance, northern Telephone ONR station, freight shed tore down. Northern Hydro office all moved to New Liskeard. We've lost taxes, with these payrolls leaving town that have forced business to close

53. No, I like Cobalt

55. yes

56. We need more stores to open up. We have the best mining school in the world Why doesn't the government open 2 or 3 mines up. Staff it with experienced miners, mill men, to teach these students actual mining along with the mining courses they are taking in theory only. If mining experiences were taught to these students, it would prevent accidents and give them a better understanding of the factual of mining.

That would make roughly to 50 or 60 jobs for local middle aged men. We could have 2 or 3 light Industries to use our own raw materials. I don't like what they are doing to Cobalt Lake. They are taking the one beauty spot of Cobalt away. Why don't they leave the lake alone" Is it Restoration" ruining Cobalt Lake. Its a waste of \$54,000. The dust is terrible now

57. Spring and summer

58. . Go to the Boston every day and pool room mostly

59. carpenter work

60. feel that some of the men In relief and welfare should be made work instead of getting relief. Its making lazy men out of some of them. Would like to see more jobs made

61. tourists

62. Winter unorganized sports, skiing, summer recreation. Unique scenery, rock cuts full of ice. Ragged Chutes air plant (hydraulic) They should have a bus operating from town to Ragged Chutes when the air is blowing off its something and the scenery into the blow off is out of this world.
