Highlights

Ivan started in business with brother Ernie - bought Quality Grocery in 1955 There until 1971 bought it from Percy Lemon, He was always the butcher and Ernie looked after the

buying end. They are now downtown in the New Red & White. Ivan is strictly against busing the kids from one area to another. Leave the small Schools alone where you get a better education and individual help. It's economical for the community you must have schools in the town.
