

Joanna Stubinski      April 19,1972

7 hours

1.      Mrs. Robert St.Laurent

2.      Nadeau

3.      6 Grandview

4.      679-5535

5.      Supply teacher

6.      Cobalt

7.      Dad Espanola not too sure where mother was born

8.      married to Robert St.Laurent

9.      35

10. Elementary level - is very good. I don't approve of grade 13 being moved. We should try and keep our children in town as long as we can. Teachers are terrific. I don't care for the bussing of kids. Very depressing - we need some sort of industry - let's home for mining as it is in Cobalt's original asset. No incentive for young people. No job opportunities on training facilities wages depends on the job you're on. Miners wages are lower. Can't complain with teachers salaries though. Have no sidewalks or no paved road on Commission St. In the summer the rain washed away the road. If it was paved it wouldn't happen. Snow removal, garbage, sewage and water. No complaints what so ever. There are a few private enterprises as for the laundromat the place is filthy. You almost hate to take your washing there to do. There should be someone there from 9 - 4 p.m. every day. The Classic Theatre another dirty place. Why is it not cleaned up. We do need another Recreational Dir. the committee can't carry on they need a leader. As for the facilities and number of things offered quite adequate. They should have a drop in centre for the youth and we need an old age club.

11. With the restoration plan should it be carried through it will be a good thing. Park is nice. Should fix buildings on Lang St. and around town. Make things nicer. I think the Miner's Festival is fine but a bit too long. 4 days would be enough

12. Thinks the park is nice for elderly people to sit in. Museum is one of the finest. Also Paul Hermiston's. If it hadn't of been for Hermiston the Museum today would not be the way it is. There are too many men in there now taking all the credit and the man who deserves it is Paul Hermiston. Pottery shop is lovely and the new library an asset to the town.

13. Corner - old public school should be improved. Continue with work on the Lake - Lions Club Park. Arena could be renovated and kept cleaner. Street signs and hurry up the housing developments for Senior Citizens.

14. Federal or provincial grants. Raise funds locally, the individual himself should take pride in his town and property. Each family look after their property and their children. We need a better shopping area and a shopping mall.

15.      When I first started to work. I taught school and was paid 12,400. a year, but the wages have tripled now for the person just starting out.

16.      We lived at the other end of town in a 2 storey wood frame house. Always bad facilities.

17. The shopping area was better Woolworth's TBS, Buck's hardware stores, drug store, furniture store and clothing. By the looks of things we have gone backwards instead of making progress.

18. badminton, ball, skating, basketball all sports taken at school and broomball

19. I went to St. Theresa's then Cobalt High till grade 13 then to Teacher's College in North Bay

20. my 3 children all born in Haileybury Hospital still in school.

#### Highlights

Jackie taught at St. Patrick's school for quite a few years and now is doing supply work.

A fine woman who believes in speaking her mind. Has a beautiful home and really believes in keeping up her yard. With flower gardens and a clean yard. She wishes more would do the same.
