14. When I came to Haileybury there were only a few houses left at the North End all you could see was foundations full of twisted bedsteads, stoves, etc. roads were all stones and ashes. I had come because there would be carpenter work here. I helped work on the Court House, Dr. Summervilles home, Mrs. Ed McEwen and Martin Hanskies and several others I also worked at O'Brien Mine for 8 years and 9 months and Nipissing for one year carpenter and repairing. We worked eight hours a day at the O'Brien. I received \$3.75 a day and at Nipissing \$235.

In 1937 I went in the ice business and delivered to North Cobalt, Haileybury and New Lyskeard as Belanger had business in Cobalt,

I purchased my house from Mr. Lafromboise. I did not see this man as Lawyer Legris handled the sale. We had coal oil lamps and a well at door I played baseball and had to go to Cobalt theatre by street car. Our Dr. was Mitchell and had minor surgery done at Red Cross Hospital which was temporary.

I think Haileybury is a nice place to live streets have been improved on taxes are to high. I enjoy the summer gardening and fishing.
