

Name of Interviewer: Simone Bedard                      March 28

Interview:        9:45 to 12:00

1. Raymond Champagne

3.        154 Lang St

4.        679-5653

5. Millwright

6. Cuthier Quebec

7. Bonfield Ontario

8. Married

9.        40 yrs. old

10. Education facilities are up to par with the rest of Ontario. For the economic situation is poor, as we have to go outside for work. The job opportunities are bad, there is no work within 200 miles, training may be ok for miners but outside of this you have to go to Toronto. Wages are good. City facilities are good.

11. We would need an industry that would employ people year round, something like a factory employ people year round, something like a factory of some kind, that wouldn't be here just fo3 a few yrs. and then close down,

12. The lower Notch Ontario Hydro Power Dam gave work to more than 3,000 men specified no. 2 occupation; millwrights had work for 25 members for 16 months. The Sherman Mine helped develop the Tri-Town and without is the Tri-Town is practically nothing

13. An industry that would employ at least 600 people year round

14,        A smelter to refine the silver or an industry that would employ a sufficient amount of men

15,        12 members

14. He did millwright at the Sherman Mine construction site for Canadian Bethel Contractor 16. Millwright

19.        Cobalt was a place that was just starting to breath with the Sherman Nine construction

20.        We came to Cobalt for the construction of the Sherman Mine.

21.        Millwright at the Sherman Mine

39.        Oldest son quit New Liskeard Secondary School after grade 11 at age 17, to start an apprenticeship in millwright at Toronto.

40.        His first job was in Sudbury he worked there during 11 months, and then he was transferred to Cobalt at Lower Notch for ten months now transferred to Timmins at Texas Gulf. 49. Cobalt is a nice place to stay and I hope we will have work soon

52. There's no more work for the finishing student,

60. All the small mines are closing down for some reason, those men needs jobs, Sherman Mine is filled up and there is no other industry in the area.

62. At the moment no one, as there is no work.

In the park that is under construction if a swimming pool was added to permit children to spend the day at the park. You would need at least 4 monitors to direct kids in play and amusement.
