1. Viola Leblanc
2. Neddo
3. Nipissing Property
4. 679-5505
5. Housewife
6. North Cobalt
7. Mom was born in Shawville Quebec
8. Married
9. 42 yrs. old

10. It's not bad but if it could get going again it would be nice.

I'd hate to have grade 13 removed from Cobalt High School as this would be the first step to having our high school close up.

I don't think it's right to have children travelling out of town when we have school facilities here.

When the government is giving grants for every other thing I can't see why they wouldn't do something to help Cobalt to open up some of the mines.

Right now jobs are sparse in Cobalt. We should have some kind of training school that would train our young people in different trades. I think the wages could be better.

I think if someone would start a shoe store or a children's wear they could make a go of it.

We should have better recreation facilities for young children and if we could get a baseball league going for young boys this would be a good improvement.

11. We should have a drugstore in town, if you need a prescription or something in that line

you either have to go to Haileybury or New Liskeard, and it's not always easy if you don't have a car. we would also need another doctor and a dentist as it takes a long time to get an

appointment with the dentist. When we had the V. O. N. nurse in Cobalt they would come and

check on my son who is invalid and now if something comes up it is more trips to the doctors

or hospital to have things looked after. It would be nice to have more stores and to have the police back in town also, if we had the police it might stop some of the vandalism around here.
