10. Just as good here as any place else for our business. My children go to Public school and I sure feel they are not disciplined very well and this means there learning, I feel is not so good.

11.

12. The economic situation is nearly nil here. There are not many job opportunities here we have our own store and try not to have too much overhead and no training we have to keep our wages at par with rest of places around. We are certainly not near to things they have in city. Could sure improve quite a lot. Denis

grocery, Gils MacPherson, Watson store and gas tanks, Wilson Service station, Lathems Construction Lindsays grocery. Recreation here not too much they had an open air rink and a ball field is in the making. A few rides for smaller children most is held in Haileybury, which means people with large families cannot afford to send their children on bus and give them money for spending there besides.

11. If we want our place to grow we should have better roads paved sidewalks and something more for our teenagers.

12. Well water and sewers made a change only they are high along with taxes and this could discourage people from building here.

13. I would like to see a dentist, Dr., drug store etc. come to live near or in this part of town. Another think I feel the welfare should be done differently. I know there is not much work only when you ask people some say I am on better on welfare.

14. Maybe our council could help us on some of these things.
